SUPPLEMENT TO BOOKLET C

The overall organization of this supplement is to include all data for each goal together. To achieve this each section is organized as follows:

		Report Name
Effective		
	Teacher	T/S Collection
	Teacher	Report #1 of Reporter Information
	Teacher	Report #2 of Reporter Information
	Student	S/S Collection
	Student	Report of Urban, Suburban, and Rural Categories
	Parent	P/S Collection
	Parent	Report of Urban, Suburban, and Rural Categories
Ineffective		
	Teacher	T/S Collection
	Teacher	Report #1 of Reporter Information
	Teacher	Report #2 of Reporter Information

GOAL 1

ACKNOWLEDGEMENTS

The contributions of the following persons and agencies in developing the materials contained in the twenty-three Q.E.P.S. booklets is hereby acknowledged with utmost gratitude:

Q.E.P.S. STAFF

Raymond Bernabei, Project Coordinator

Donald L. Wright, Project Director

Ronald E. Lesher, Coordinator of Research

Elbert S. Solt, Associate Director-Bucks County

Russell D. Diers, Supervisory Assistant-Bucks County (1969-71)

Rosemary Tracy, Associate Director-Luzerne County

Kathryn Saunders, Supervisory Assistant-Luzerne County

William K. Keele, Associate Director-Allegheny County

Frances Martin, Supervisory Assistant-Allegheny County

Mary Rita Routh, Supervisory Assistant-City of Pittsburgh (1970-71)

Thomas O. Sheridan, Supervisory Assistant-City of Erie (1969-71)

Stephen S. Berr, Supervisory Assistant-Bucks County (1968-69)

Leonard Glassner, Supervisory Assistant-City of Pittsburgh (1968-70)

Therese Toflinski, Supervisory Assistant-City of Erie (1968-69)

PUBLIC, PRIVATE, AND PAROCHIAL SCHOOLS

Teachers, administrators, students, and parents in public, private, and parochial schools in the Commonwealth generally, and specifically the pilot areas of Allegheny, Beaver, Bucks, Erie, Luzerne and Westmoreland Counties and the Cities of Erie and Pittsburgh.

PREFACE

The Bucks County Schools have for some time been committed to improving the quality of the educational offerings for its youth. Characteristic of that commitment was the manner in which officials of the Pennsylvania Department of Education, Bucks County Public Schools, Luzerne County Public Schools, Allegheny County Public Schools, Penn-Trafford School District, Pittsburgh School District, and Erie School District joined together in 1966 to draft the proposal for the Quality Education Program Study (QEPS). Conceived as a complement to Pennsylvania's pioneering efforts to assess the quality of its schools, the study was designed to define and clarify the Ten Goals of Quality Education adopted by the State Board of Education in 1965.

The following booklet is a part of the story of how Q.E.P.S. went about its ambitious task, and the results of that effort. We trust this statement of the behavioral definitions for Pennsylvania's Ten Goals of Quality Education will serve as a guide for the evaluation and improvement of teaching and learning in the schools of the Commonwealth.

Dr. George E. Raab
County Superintendent
Bucks County Public Schools

INTRODUCTION

In recent years there has been an increased interest in goal definition in education. Most efforts toward the establishment and definition of goals seems to take the form of generalizations or descriptive statements. Little, if any, data is available concerning empirical methods for efining educational goals.

Until recently, the "Goals for Quality Education" were not defined in a coherent form. An analysis of this problem revealed that most stated goals have little exact meaning for the practicing educator. Frequently, goals are stated in such general terms that any educator could convince himself that these goals are the purpose that guide his program. Goals are statements of general educational intents. While it is not absolutely necessary for goals to be stated in performance terms, the more clearly these statements are described, the more readily we can develop valid indicators of pupil behavior.

The first step in constructing an instructional program centers upon the need for a set of objectives. An objective refers to the performance or change in behavior a pupil is to exhibit upon completion of instruction. Therefore, meaningful objectives should relate to the "Goals for Quality Education". If one is "to measure objectively the adequacy and efficiency" of educational programs, these objectives must be described in terms of not what the schools do, but in what children do. One must itemize the kinds of behavior that add up to the goals for quality education if we are ever to know how children progress toward the goals or how efficient an educational program may be in furthering such

progress. Specifying goals in this way poses practical problems.[1]

The formulation and adoption of Pennsylvania's Goals of Quality Education represents a major step toward the definition of the State's educational intents, making possible an assessment of its efforts toward the fulfillment of those intents. In an effort to further increase the utility of the goals to the practitioner and evaluator, the Quality Education Program Study was proposed to review, define, and clarify the Ten Goals. Funded in 1968 under E.S.E.A. Title III, Q.E.P.S. made a unique departure from the usual "armchair philosophy" or logical approach to goal definition by deciding to employ the Critical Incident Technique. This technique was used to collect empirical data to define the goals.

The QEPS staff collected critical incident data from teachers, students, and parents from various urban, suburban, and rural areas throughout the State. These data included both student behaviors indicative of achievement of the Ten Goals and teacher behaviors effective in helping students achieve these Goals.

The resulting descriptions or definitions for each of the Ten Goals include: (1) Student Behaviors, (2) Rationales or narrative explanations, and (3) Teacher Strategies. Also, for each Goal QEPS has developed needs assessment instruments to provide the practitioner with a mechanism to systematically gather information to assess its needs and assign priorities to those needs.

[1]Educational Testing Service. A Plan for Evaluating the Quality of Educational Programs in Pennsylvania. Volume One: The Basic Program. Princeton, New Jersey: ETS, Henry S. Dyer, Project Director, Chapter I, pages 1-4 (June 30, 1965).

It is hoped that the resulting products of three years of intensive work devoted to defining Pennsylvania's Ten Goals of Quality Education will provide various segments of the educational community with information and the means to continue to improve the quality of education for the students of Pennsylvania.

Raymond Bernabei
Assistant Superintendent
Bucks County Schools

Donald L. Wright
Project Director, Q.E.P.S.

PROJECT REPORTS

The following is a listing and brief description of the reports produced by the Quality Education Program Study:

Booklet A	Project Description A description of the project including a background and overview and a detailed report of procedures used to collect, handle, and analyze the data. Includes an appendices.
Booklet B	General Needs Assessment Instructions General Needs Assessment Instrument for the Ten Goals.
Booklet C	Characteristics of Incidents and Their Reporters Gives a tabulation of various characteristics of reporters for each category and sub-category of student behavior.

Goals One through Ten each have two reports. The first is a Description of the goals, containing three basic components: (1) the categories of student behavior, (2) rationales for the areas of effective student behavior, and (3) related teacher strategies. The second report is related to the Needs Assessment of that goal and contains: (1) Instructions, (2) the general needs assessment instrument for that goal, and (3) an analysis of instruments related to that goal. The booklets for the Ten Goals are:

	Goal One - Self Understanding
Booklet 1	Description
Booklet 1A	Needs Assessment
	Goal Two - Understanding Others
Booklet 2	Description
Booklet 2A	Needs Assessment
	Goal Three - Basic Skills
Booklet 3	Description
Booklet 3A	Needs Assessment

	Goal Four - Interest in School and Learning
Booklet 4	Description
Booklet 4A	Needs Assessment
	Goal Five - Good Citizenship
Booklet 5	Description
Booklet 5A	Needs Assessment
	Goal Six - Good Health Habits
Booklet 6	Description
Booklet 6A	Needs Assessment
	Goal Seven - Creativity
Booklet 7	Description
Booklet 7A	Needs Assessment
	Goal Eight - Vocational Development
Booklet 8	Description
Booklet 8A	Needs Assessment
	Goal Nine - Understanding Human Accomplishments
Booklet 9	Description
Booklet 9A	Needs Assessment
	Goal Ten - Preparation for a World of Change
Booklet 10	Description
Booklet 10A	Needs Assessment

Table 2 Teacher Summary Report for 1970

Table 3 List of Participating Schools

Table 4 Goal 1 Area 1 Categories and Sub-categories and Who Reported Incidents

P U R P O S E

There are three purposes for this booklet. First is to report a simple description of the teachers that participated in the definition of the ten goals of Quality Education. These teachers are described in Table One, "Teacher Summary Report for 1969". The second purpose is to report a simple description of the teachers that participated in the collection of teacher strategies. These teachers are described in Table Two, "Teacher Summary Report for 1970"

In addition to a simple summary description of the samples of teachers who participated in the different project activities, another objective of the study was to describe the reporters (teachers, students, and parents) that reported incidents in each category and sub-category of student behavior.

Why report an analysis of this sort? The project has described over 1500 categories of behavior in the ten goals of education. Very early in the project, questions were asked like: What kind of teacher would report an incident about peaceful dissent? Young? Experienced? From an urban area? Would parents report this type of incident?

The answers to these questions are simply a compilation and analysis of the incidents that were collected in the project. Any attempt to generalize to the general population of teachers, students, and parents of the Commonwealth of Pennsylvania should be done with caution because of the sampling procedures used in the project.

Teacher Summary Reports for 1969 and 1970

Table 1 summarizes the characteristics of the teachers who contributed incidents of student behavior. Table 2 summarizes these same characteristics for teachers who contributed incidents of teacher behavior used in the determination of teacher strategies. The grand totals for each characteristic are not necessarily equal because of uncomplete data. Ten major categories account for the ways in which the characteristics of the sample of teachers are described.

Geographic Area

1. Allegheny County (includes several Beaver and Westmoreland County Schools)
2. Pittsburgh City
3. Erie City and County
4. Bucks County
5. Luzerne County

Urban, Suburban, Rural

1. Open country or farming community
2. Small town, not a suburb (less than 10,000)
3. Medium size city (10,000 - 100,000)
4. Suburb of medium size city
5. Large city (100,000 - 500,000)
6. Suburb of large city
7. Very large city (over 500,000)
8. Suburb of a very large city

The rest of the categories should be self-explanatory. Overall they include sex, marital status, age, race, years teaching within the district, total teaching experience, level of education, and certification.

Table 3 contains a list of public and private schools that contributed to the study.

PROCEDURES FOR OBTAINING CHARACTERISTICS OF INCIDENTS AND THEIR REPORTERS.

When incidents were collected from teachers, students and parents, additional data about the incident and its reporter were also gathered. The data that was gathered was decided upon early in the project through the identification of questions of interest. These data are presented in the next section entitled "Questions of Interest."

After all incidents were classified by goal, category and sub-category, the data for each incident and reporter was keypunched for computer use. Frequency counts for each type of data were obtained for each category and sub-category. The Honeywell H-1200 computer of the Bucks County Public Schools, Doylestown, Pennsylvania was used to obtain all frequency counts.

QUESTIONS OF INTEREST

A number of variables were considered important to collect from the beginning of the student behavior collections. From each teacher that participated in the study the following data were collected:

(1) County

(2) District

(3) Grade level taught

(4) Sex of teacher

(5) Marital status - married, single, or divorced

(6) Racial Ethnic -- Spanish, Other White, Negro, Chinese, Japanese, American Indian

(7) Age

(8) Years in the current district

(9) Total years teaching experience

(10) Education - standard certificate, bachelors degree, bachelors + 15 credits, masters degree, masters + 15 credits, masters + 30 credits, doctors degree

(11) Types of certification - elementary, mathematics, science, social studies, language arts, art-music, physical education-health, foreign language

(12) Sex of student reported

(13) Subject in which the incident took place

A smaller number of data were recorded for each incident reported by a student:

(1) County

(2) School district

(3) Grade level of student reporter

(4) Sex of student reporter

(5) Subject in which the incident took place

Finally the data for the parents' reports of student behaviors consisted of:

(1) County

(2) District

(3) Sex of parent

(4) Grade level of student in the incident

(5) Sex of student in the incident

The variables just listed provided the ways in which frequency counts were made. One additional variable was obtained by classification of each district according to the urban-suburban-rural scheme used by the Bureau of Quality Assessment, Department of Education, Harrisburg, Pennsylvania.

1. In the open country or in a farming community.
2. In a small town (less than 10,000 people) that is not a suburb.
3. Inside a medium size city (10,000-100,000 people).
4. In a suburb of a medium size city.
5. Inside a large city (100,000-500,000 people).
6. In a suburb of a large city.
7. In a very large city (over 500,000 people).
8. In a suburb of a very large city.

Complete tabulation for each of the above variables is presented in the Supplement to Booklet C.

SUGGESTIONS FOR FURTHER RESEARCH

How to Use Tables for Further Hypothesis Generation

As was indicated in the "Purpose" section earlier many questions arise when examining the categories of behavior. Was it reported by parents, students, and teachers? What kind of teachers would report incidents of student behavior in this category? Young? Experienced? Male?

Certainly one task that remains to be done in obtaining a clearer understanding of the goals, and the behaviors that make up the goals of education is to look at the types of people who value the different categories of behavior.

By looking at categories of behavior that are important to the reader and looking at the characteristics of the people who reported incidents of that category, a certain amount of insight is obtained.

Sample of Hypothesis Generation

For the purpose of this booklet Goal 1 Area 1 will be examined in some detail. Goal 1 deals with Self-Understanding and Area 1 specifically deals with behaviors in which a student demonstrated competency or a willingness to test his competency by attempting a task.

Let's first look at categories not reported by teachers, students, and parents (see Table 4). Only one category (1.8) is not reported by teachers. This category (student played a musical instrument (other than in a class or public presentation)) is probably not too significant except that it is outside the normal school setting. By referring to the S/S collection section of the Supplement, one finds four incidents of this sort all reported at the fifth grade level.

Quite a number of sub-categories are reported by only teachers. Category 1.3 and its sub-categories provide an example of this. Significantly, at the category level incidents were contributed by teachers, students and teachers.

Category 1.1 and sub-category 1.1-1 are both reported by only teachers and students, but they are both concerned with a contribution to class discussion. It is quite understandable why parents might not report incidents like this, since they are not present in the classroom setting.

Further analysis of the teachers reporting incidents in this category and sub-category (see T/S collection reports number 1 and 2 of reporter information in the Supplement) tend to have less than ten years experience and were also among the younger teachers. There were a smaller number of the more experienced teachers that also report incidents of this sort. Most of the incidents were also reported in grades eight and eleven.

One of the other uses to which the categories of student behavior might be put is to develop test instruments for the assessment of achievement of the goals. Certainly the type of analysis just presented should be considered in the process of developing test instruments. Clearly the insight gained is necessary for meaningful test item development.

TABLE 4

GOAL 1 AREA 1

Categories and Sub-categories

and Who Reported Incidents

ORGANIZATION OF TABLES IN SUPPLEMENT TO BOOKLET C

The overall organization of this supplement is to include all data for each goal together. To achieve this each section is organized as follows:

	Report Name
Effective	
Teacher	T/S Collection
Teacher	Report #1 of Reporter Information
Teacher	Report #2 of Reporter Information
Student	S/S Collection
Student	Report of Urban, Suburban and Rural Categories
Parent	P/S Collection
Parent	Report of Urban, Suburban and Rural Categories
Ineffective	
Teacher	T/S Collection
Teacher	Report #1 of Reporter Information
Teacher	Report #2 of Reporter Information

Category number in the first column consists of a six digit number. The first two are the area number; the middle two the category number; and the last two are the subcategory number. Thus 030204 corresponds to 3.2-4 as found in Booklets 1-10; 030200 would be 3.2 (the 00 indicating no subcategory). Note that 000100 are incidents clearly related to the goal but uncategorized and that 000200 are incidents which appear not to be related to the goal and thus uncategorized.
